Mr. Fabris,

Enclosed is \$10.00 . Please renew my subscription for Volume 2.

In "MICRO TREC" I am having trouble getting the ship to dock and reload the energy, do you have any idea what might be wrong?

I would be glad to review programs for you if you need anybody else, just add my name to the list, I feel I could do a fairly good job of reviewing them.

I am sorry I didn't renew my subscription earlier, but wouldn't miss it for anything.

I await your reply concerning my reviewing programs!

Sincerely yours,

Tom Jenhings
